

George S. Chang, DO, MS
Medical Information Specialist
National Cancer Institute
9609 Medical Center Drive
Rockville, Maryland USA 20850
Tel: 202-322-9248
e-mail: changg@mail.nih.gov

Dr. Chang is a medical information specialist with the National Cancer Institute's Enterprise Vocabulary Services working in support of the NCI Thesaurus and NCI Metathesaurus. He has worked in the field of biomedical informatics for the past six years beginning with his work editing the National Library of Medicine's Unified Medical Language System Metathesaurus and RxNorm, a database of normalized names for clinical drugs. He completed his medical education at Midwestern University's Arizona College of Osteopathic Medicine. Prior to medical school, he completed his graduate studies at Johns Hopkins University, obtaining a Master's Degree in Interdisciplinary Science Studies, while working as a senior research assistant for the Henry M. Jackson Foundation for the Advancement of Military Medicine's therapeutic HIV-1 subunit vaccine effort. He completed his undergraduate studies in Biochemistry at Virginia Polytechnic Institute and State University.
